appointment today!**

Come in for your FREE hearing assessment*

We believe that everyone in our community over the age of 55 years old should have their hearing screened annually as part of their personal wellness program. More than 36 million people in the U.S. have some hearing loss.¹ Don't wait any longer to find out what you aren't hearing. Make sure you hear everything around you.

1. National Institute on Deafness and Other Communication Disorders, www.nidcd.nih.gov.

*The purpose of this hearing assessment and/or demonstration is for hearing wellness to determine if the patient(s) may benefit from using hearing aids. Products demonstrated may differ from products sold. Test conclusion may not be a medical diagnosis. The use of any hearing aid may not fully restore normal hearing and does not prevent future hearing loss. Testing is to evaluate your hearing wellness, which may include selling and fitting hearing aids. Hearing instruments may not meet the needs of all hearing-impaired individuals. Information within this offer was correct at time of printing.
