

Fall Newsletter

We have had a busy summer here at HBSC, hope you all enjoyed it as much as we did.

A Note from Dr. Bauman

As I sit down to write few "wisdom" words in my column I realize that I have not shared with you the fact that I am a proud member of the "hearing aid wearer club".

I reached a point when my brain told me that it was straining to understand. Sure enough I was tested and found to have a small amount of high frequency hearing loss. Just the part of hearing range which is so crucial in providing clarity, brightness to speech.

So now I wear two hearing aids which provide the brightness to my brain and ease to my listening efforts. I am looking forward each morning to enlighten my day with the sounds which I have been missing.

I realize how important is hearing not only in hearing sounds but also how important it is in the process of listening and to top it all how important it is in the process of understanding and keeping my brain young. All, making this a precious process. (I will be having few lectures about the process of hearing, listening and understanding. Please call the office for more information)

Recently for my convenience I installed a rechargeable battery. What a true convenience. At the end of the day I just remove my hearing aids put them into a charger and in the morning they are fully charged and ready to go. Never have to open the battery door. (please call the office to find out more about the rechargeable batteries).

Hope you had a great summer and are going to have a beautiful fall.

NATAN BAUMAN, MS. ENG., ED.D., F-AAA

President of the Hearing, Balance and Speech Center

President of the New England Tinnitus and Hyperacusis Clinic

Chairman and Founder of the Tinnitus Practitioners Association (TPA)

Inventor of the CHaTT (Cognitive Habituation Tinnitus Therapy)

Inventor of the RITE/RIC hearing aid system

National and International Lecturer

Announcements

Hearing, Balance & Speech Center

BUILD YOUR BODY & "HEARING MUSCLES"!

FREE 90 DAY SUPPLY

DID YOU KNOW THAT KEEPING YOUR MUSCLES HEALTHY WILL HELP YOUR ABILITY TO WALK, RUN, JUMP, LIFT THINGS, PLAY SPORTS, AND DO ALL THE OTHER THINGS YOU LOVE TO DO - THIS INCLUDES YOUR HEARING.

At Hearing, Balance and Speech Center we pride ourselves for understanding the connection between a healthy body and healthy hearing to optimize a healthy lifestyle.

Hearing, Balance and Speech Center is so excited to be the first hearing practitioner to offer SarcoSelect, a nutritional protein supplement designed by clinicians to help optimize muscle physiology including the Cilia (hair receptors) of the inner ear. The Cilia or "hearing muscle" work to funnel sound waves through the ear canal.
